

Directions to the start of the tour

The nearest postcode is **TD9 9UQ** but most satellite navigation systems stop you before you have arrived at Stobs. More specifically the entrance into the camp is at grid reference **NT 506 100**.

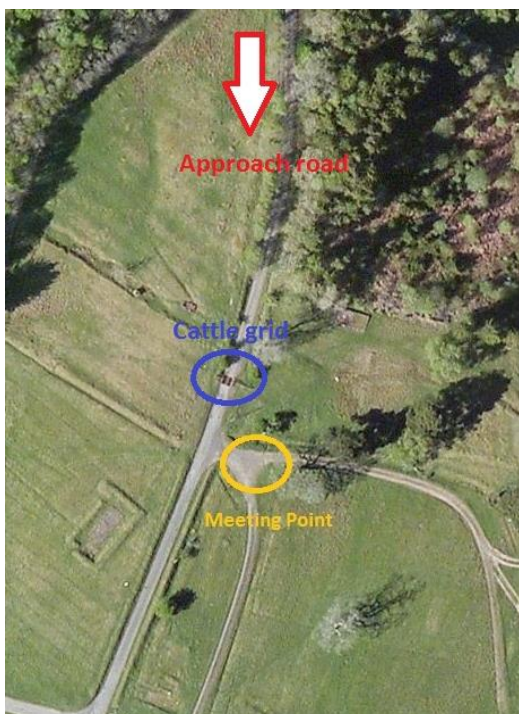

Head south out of Hawick on the B6399 towards Newcastleton. About 4 miles from Hawick you will pass a farm with a waterwheel on your left. Stay on the B6399. You will then pass pig huts in a field on your right and then more pig huts on your left.

At the next bend in the road you will see a War Memorial on the right hand side.

Turn right just in front of the War Memorial and head up this single track road.

You will pass another farm on your right and will then drive under a railway viaduct. Further up you will pass a sign for Stobs Station House (on a gate) on your left. Keep on up the hill.

You will then emerge from the tree cover.

Drive over a cattle grid and the car parking area is just on the left. This is marked as 'Meeting Point' on the illustration. Park here, but please do not block any roads or tracks.
